PETITION TO PLYMOUTH BOARD OF SELECTMEN

Entergy's long term storage of high level radioactive waste in our community poses a risk to our families, homes, businesses and economy. Therefore, I urge you to use your authority to insure that:

- Entergy's dry cask storage project is sited, designed, built and operated in the safest manner possible,
- Entergy pays all costs that the Town may incur in connection with the nuclear waste storage.

As a local business owner, I urge you to act immediately to protect our businesses, public safety, and the Town's fiscal well-being before the opportunity is lost or becomes irreversible.
